

**RFP Number:** SEC-2026-TEST-001

**Issuing Organization:** Apex Enterprise Technologies

**Purpose:** Selection of a cybersecurity solution to support enterprise cybersecurity risk management.

## **1. Background**

Apex Enterprise Technologies is seeking a solution to strengthen its cybersecurity risk management capabilities based on the **NIST Cybersecurity Framework (CSF) 2.0**.

## **2. Vendor Response Questions**

### **Q1. Cybersecurity Framework**

Describe how your solution supports the six Functions of the NIST Cybersecurity Framework 2.0: **Govern, Identify, Protect, Detect, Respond, and Recover**.

### **Q2. Data Protection**

Explain how your solution protects the **confidentiality, integrity, and availability of data at rest and data in transit**.

### **Q3. Identity and Access Management**

Describe how your solution supports **identity management, authentication, access control, and least-privilege access**.

### **Q4. Incident Response**

Explain how your solution supports the **analysis, management, containment, eradication, and reporting of cybersecurity incidents**.

### **Q5. Supply Chain Risk Management**

Describe how your solution supports **cybersecurity supply chain risk management**, including the identification and management of cybersecurity risks associated with suppliers and third parties.
